

How to Order

- **NDA** - submit to Adacel your company's non-disclosure agreement **NDA** or similar document or download our NDA form. Adacel will immediately sign and fax back to you.
- **New Product Development - ODM** - submit to Adacel your target project cost and target unit cost, schedule, and estimated annual usage (EAU), overall requirements, and specifications. This should include any samples and your system requirements, preliminary design requirements, or other existing design requirements. Adacel's team of engineers will review your requirements, drawings, and other related documents and provide your company with a detailed quotation. It usually takes about 5 to 10 working days depending on the complexity of the project.
- **Production Line Transfers** - submit to Adacel your production or manufacturing requirements. This should include estimated annual usage (EAU), minimum order requirements (MRQ), samples, and related drawings and bills of materials (BOM).
- **Sourcing Individual Mechanical and Electrical Components** - submit to Adacel the related component estimated annual usage (EAU), target price, minimum order requirement (MRQ), samples, other requirements, specifications, and schedule. Adacel's team will review your situation and give your company a detailed quotation. It usually takes about 5 to 7 working days depending on the complexity of the component.
- **Transfers of Engineering Work** - submit to Adacel your target project cost, schedule, overall requirements, and specifications. This should include samples and your system requirements, preliminary design requirements, or other existing design requirements. Adacel's team of engineers will review your requirements, drawings, bills of materials (BOM) and other related documents and provide your company with a detailed quotation. It usually takes about 5 to 10 working days depending on the complexity of the project.
- **Manage an Ongoing Project or Logistics** - submit to Adacel the factory or supplier information along with the related requirements, specifications, samples, and schedules. Adacel's team will review your situation and give your company a detailed quotation. It usually takes about 5 to 7 working days depending on the factory and other concerns.
- **Other Services** - from time to time there may be special requests that are not covered in the list above. Feel free to contact Adacel and submit to us your situation. Include target price, estimated annual usage, minimum order requirements, and related specifications and schedule. Our team of experts will review and get back to you ASAP with a list of possible solutions.
